Subject Index

Abdominal pain, in children with infections due to *Y. enterocolitica*, 705
Abscesses, brain, and staphylococcal meningitis followed by diabetes insipidus and anterior pituitary dysfunction, 102
Absorption, with *S. aureus*, use in improved test of IgM antibody to Epstein-Barr virus, 518
Actinomycin D, possible alterations of normal mechanisms of endotoxin toxicity in vivo, 746
Acyclovir-resistant herpes simplex virus type 1, from an immunodeficient child, pathogenicity, 673
Acyclovir, topical, in polyethylene glycol, treatment of herpes simplex labialis, 85
Adenine arabinoside, and *E*-5-(2-bromovinyl)-2′-deoxuridine, physical analysis of resistance of herpes simplex virus, 167
Adherence, of piliated *H. influenzae* type b to human oropharyngeal cells, 564
Agammaglobulinemia, prolonged excretion of group A coxsackievirus in an infant, 712
Amastigotes, *L. enriettii*, demonstration of fibrillar surface, 758
Aminoglycoside-resistant variants of *P. aeruginosa*, in an in vivo model, 691
Amphotericin B
  and modified polyriboinosinic-polyribocytidylic acid, pharmacokinetics of interferon after administration, 819
  effect of temperature on susceptibilty of *S. schenckii*, 711
  in combination with other polyene and imidazole antibodies, antifungal action, 138
  methyl ester, and leukoencephalopathy, 125, 173
  treatment of experimental cryptococcal meningitis, 429
Ampicillin, synergy with gentamicin, in experimental meningitis due to group B streptococci, 100
Antibiotic
  resistance, selection of aminoglycoside-resistant variant of *P. aeruginosa* in an in vivo model, 691
  susceptibility, effect of temperature on resistance of *S. schenckii* to amphotericin B, 711
Antibiotics
  bacteriostatic, successful prophylaxis against streptococcal endocarditis in rats, 806
  effect of the surface area to volume ratio on penetration into extravascular spaces in vitro, 423
  β-lactam, effect on resistance of digestive tract of mice to colonization, 417, 835
  third-generation cephalosporins in treatment of pneumonia due to *P. aeruginosa* in guinea pigs, 567
Antibodies
  IgE, to tetanus toxin, elevation of levels in individuals vaccinated with diphtheria-pertussis-tetanus vaccine, 290
  IgM
    to *C. trachomatis*, detection in diagnosis of pneumonia in infants, 530
    to Epstein-Barr virus, improved test using absorption step with *S. aureus*, 518
  to *M. pneumoniae*, titer increases in patients with purulent meningitis, 284
Antibody
  independent activation, of C1 by type Ia group B streptococci, 665
  monoclonal, to capsular polysaccharide of *H. influenzae* type b, protection from infection, 249
  responses
    measured by enzyme immunoassay after infection with influenza A/USSR/77 virus, lack of parallelism, 827
    to varicella-zoster virus after natural or vaccine-induced infection, 260
  to capsular polysaccharide of *H. influenzae* type b, relation between natural human mucosal and serum antibody, 243
  to cytomegalovirus early antigen, detection in vaccinated normal volunteers and renal transplant candidates, 255
  to Ebola virus, in guinea pigs in Zaire, 483
  to hepatitis A virus in young inmates, 442
  to immunoglobulin, role in potentiation of neutralization of varicella-zoster virus, 524
  to lipopolysaccharide, in the acute-phase sera of patients with meningitis due to *H. influenzae* type b, 714
Antigen, fimbrial hemagglutinin of *B. pertussis*, diagnosis of whooping cough by an enzyme-linked immunosorbent assay, 741
Antimicrobial agents, susceptibilities of nutritionally variant streptococci, 536
Arabinitol
  estimation of appearance rate in rats and humans, 353
  increased levels in rats with experimental candidiasis, 346
Arenavirus, experimental infection of rhesus monkeys, 360
Aspergillus fumigatus, serodiagnosis of systemic infection, 570
Babesia microti, immunoresponsiveness in humans with acute infections, 369
Bacille Calmette-Guérin, protective effects in infection with *M. avium-intracellulare*, 450
Bacteremia, role of peptidoglycan from *S. aureus* in leukopenia, thrombocytopenia, and complement activation, 227
Bacteriology, of maxillary sinuses in patients with cystic fibrosis, 589
Bacteriuria
  correlation with tissue infection, 450
  prospective microbiologic study in patients with chronic indwelling urethral catheters, 719
Bangladesh, diarrheal disease hospital, epidemiologic and clinical features of patients infected with *Shigella*, 177
Biting, institutional outbreak of hepatitis B related to a human carrier, 652
Bordetella pertussis, fimbrial hemagglutinin, diagnosis of whooping cough by an enzyme-linked immunosorbent assay, 741
Botulism, resistance of mice with limited intestinal flora to enteric colonization by *C. botulinum*, 791
Bovine herpesvirus type 1, interactions with neurons in vitro, 97
Breast milk, recovery of staphylococcal enterotoxin F from a woman with toxic-shock syndrome, 456
E-5-(2-Bromovinyl)-2′-deoxuridine, and adenine arabinoside,

physical analysis of resistance of herpes simplex virus, 167
Bronchial reactivity, in experimental infections with temperature-sensitive vs. wild-type influenza virus, 468
Brucella abortus, resistance and susceptibility of mice to infection, 381
Campylobacter jejuni, diversity of serotypes in outbreaks of enteritis, 826
Candida albicans
action of amphotericin B in combination with other polyene or imidazole antibiotics, 138
experimental infection in rats, increased arabinitol levels, 346
relevance of arabinitol appearance rate to the diagnosis of infection, 353
serodiagnosis of systemic infection, 570
Candida tropicalis, role in emphysematous pyelonephritis, 569
Catheters
chronic indwelling urethral, prospective microbiologic study of bacteriuria in patients, 719
intravenous, adherence and growth of coagulase-negative staphylococci on surfaces, 479
Cefamandole, resistance, derepression of β-lactamases by cefoxitin and mutation in *E. cloacae*, 34
Cefoxitin, derepression of β-lactamases, 34
Cephalosporins, third-generation, in treatment of pneumonia due to *P. aeruginosa* in guinea pigs, 567
Cerebrospinal fluid
complement-mediated opsonic activity, early response during bacterial meningitis, 310
pili and outer membrane appendages on *N. meningitidis* in an infant, 568
recovery of strains of herpes simplex virus type 1 from a man with hepatic proctitis and meningitis, 584
Chemotherapy, for tuberculosis, 698
Chile, precise estimation of numbers of chronic carriers of *S. typhi* in Santiago, 724
Chlamydia trachomatis
asymptomatic urethral infections in male U.S. military personnel, 828
serology in infants with pneumonia, 530
Clostridium botulinum, resistance of mice with limited intestinal flora to enteric colonization, 791
Clostridium difficile
epidemiology in infants, 727
varying results of counterimmunoelectrophoresis for detection of toxins, 449
Coccidioides immitis, dimorphism, effects of leukocytes, 56
Colchicine, and neutropenia, effect on protection against pyelonephritis in rats by suppression of acute suppuration, 220
Cold-recombinant influenza virus vaccine, evaluation in ferrets, 780
Colectomy, possible protective role of endotoxin in frog virus 3 hepatitis in rats, 594
Complement
activation, leukopenia, and thrombocytopenia associated with bacteremia, role of peptidoglycan from *S. aureus*, 227
first component, antibody-independent activation by type Ia group B streptococci, 665
Conjunctivitis, acute hemorrhagic, epidemic due to coxsackievirus A24, 16
Counterimmunoelectrophoresis, varying results for the detection of *C. difficile* toxins, 449
Coxsackievirus
A24, epidemic of acute hemorrhagic conjunctivitis, 16
B3, impairment of immunocompetent mouse spleen cell functions, 797
group A, prolonged excretion in an infant with agammaglobulinemia, 712
Creatinine, arabinitol ratio
estimation of arabinitol appearance rates in rats and humans, 353
in rats with experimental candidiasis, 346
Cryptococcus neoformans, treatment of experimental meningitis with amphotericin B, 5-fluorocytosine, and ketoconazole, 429
Cyclophosphamide, effect on pneumonitis due to murine cytomegalovirus, 388
Cystic fibrosis, bacteriology of maxillary sinuses, 589
Cytomegalovirus
early antigen, detection of antibody in vaccinated normal volunteers and renal transplant candidates, 255
excretion in mothers after delivery of congenitally infected and normal infants, 1
murine, pathogenesis of pneumonitis, 388
role of lymphocytes in infections, 300
serum amyloid A levels in infected patients, 443
Towne strain, detection of antibody to cytomegalovirus early antigen in normal volunteers, 255
treatment of pneumonia with combined vidarabine and human leukocyte interferon, 80
Cytopathogenicity, of *E. histolytica*, effect of ion channel inhibitors, 335
Cytotoxicity, cellular, of leukocytes for herpes simplex virus-infected cells by intralipid, inhibition, 64
Cytotoxin
of *E. histolytica*, purification, characterization, strain virulence, and protease activity, 616
of *L. pneumophila*, effects of phagocytosis on polymorphonuclear leukocytes, 328
S. dysenteriae type 1–like, production by *E. coli*, 763
Decontamination, with paraformaldehyde gas, survival of *L. pneumophila*, 291
Delta agent, of hepatitis, infection in Sweden, 472
Dengue virus, delayed-type hypersensitivity in mice, induction and characterization, 235
Dental extraction, recurrence of herpes simplex virus, 707
2-Deoxy-D-glucose, in failed treatment of experimental cutaneous and genital infections due to herpes simplex virus, 159
Diabetes insipidus, anterior pituitary dysfunction after staphylococcal meningitis and multiple brain abscesses, 102
Diagnosis, serologic
of bone and joint tuberculosis by an enzyme-linked immunosorbent assay, 280
of gonorrhea using a genetic transformation test on mailed clinical specimens, 275
Diarrhea, due to Norwalk virus in families, 116
Diarrheal disease hospital, Bangladesh, epidemiologic and clinical features of patients infected with *Shigella*, 177
Diphtheria-pertussis-tetanus vaccine, elevation of levels of IgE antibody to tetanus toxin in vaccinated individuals, 290
Doxycycline, prophylaxis for human scrub typhus, 811

Early antigen, cytomegalovirus, detection of antibody in vaccinated normal volunteers and renal transplant candidates, 255
Ebola virus, antibody in guinea pigs in Zaire, 483
Editorials
amphotericin B methyl ester, and leukoencephalopathy, 173
raw milk as a vehicle for transmission of infectious agents in the United States, 440
Endocarditis, streptococcal, successful prophylaxis with bacteriostatic antibiotics in rats, 806
Endotoxin
possible protective role in colectomy in rats with frog virus 3 hepatitis, 594
role in the pathogenesis of the Jarisch-Herxheimer reaction, 606
toxicity, possible alterations of normal mechanisms in vivo by actinomycin D, 746
Enocin, an antibiotic produced by *S. salivarius* contributing to protection against infection due to group A streptococci, 683
Entamoeba histolytica
effect of ion channel inhibitors on cytopathogenicity, 335
purification, characterization, strain virulence, and protease activity of cytotoxin, 616
Enteritis, diversity of serotypes in outbreaks due to *C. jejuni*, 826
Enterobacter cloacae, resistance to cefamandole, derepression of β-lactamases by cefoxitin and mutation, 34
Enterobacter species, effect of β-lactam antibiotics on resistance of digestive tract of mice to colonization, 417, 835
Enteroinvasive strains of *E. coli*, correlation of invasiveness with plasmid, 706
Enterotoxin F, of *S. aureus*, recovery from breast milk of a woman with toxic-shock syndrome, 456
Enteroviral disease, in the United States, 1970–1979, 103
Environmental surfaces, survival of influenza viruses, 47
Enzyme immunoassay
lack of parallelism in antibody responses after infection with influenza A/USSR/77 virus, 827
rapid multiple determinant, for the detection of human rotavirus, 43
Enzyme-linked immunosorbent assay
detection of antibodies to Epstein-Barr virus antigens, 734
serologic diagnosis
of bone and joint tuberculosis, 780
of whooping cough using fimbrial hemagglutinin as antigen, 741
Epidemiology
acute hemorrhagic conjunctivitis due to coxsackievirus A24, 16
antibody to Ebola virus in guinea pigs in Zaire, 483
detection of the Snow Mountain agent of acute gastroenteritis, 184
effect of mass vaccination with oral poliovirus vaccine in China, 552
enteroviral disease in the United States, 1970–1979, 103
excretion of cytomegalovirus in mothers after delivery of congenitally infected and normal infants, 1
hepatitis B in homosexual men, 7
incidence of hepatitis B virus infections in preschool children in Taiwan, 198
infection with delta agent of hepatitis in Sweden, 472
institutional outbreak of hepatitis B related to a human biting carrier, 652
Korean hemorrhagic fever
isolation of Hantaan virus from wild urban rats, 638
laboratory-acquired infections with Hantaan virus, 645
mortality and influenza, 313
natural course of chronic active hepatitis in preschool children in Taiwan, 205
of *C. difficile*, in infants, 727
of infections due to *N. meningitidis* and *N. lactamica* in a northern Nigerian community, 626
of poliomyelitis, 540
outbreak of gastroenteritis due to Norwalk virus associated with a municipal water system, 190
patients infected with *Shigella* who attended a diarrheal disease hospital in Bangladesh, 177
poliomyelitis in the United States, 1969–1981, 558
Salmonella dublin infections in the United States, 1979–1980, 322
Epstein-Barr virus
antigens, detection of antibodies by enzyme-linked immunosorbent assay, 734
biology and chemistry, 506
improved test for IgM antibody using absorption step with *S. aureus*, 518
role of lymphocytes in infections, 300
Escherichia coli
correlation of invasiveness with plasmid in enteroinvasive strains, 706
disturbed intrarenal distribution of gentamicin in experimental pyelonephritis, 436
effect of β-lactam antibiotics on resistance of digestive tract of mice to colonization, 417, 835
production of *S. dysenteriae* type 1-like cytotoxin, 763
pyelonephritis in rats, protection by suppression of acute suppuration, 220
significance of intrarenal concentrations of gentamicin for pyelonephritis in rats, 91
type 1 fimbriae-bearing strains, interaction with human polymorphonuclear leukocytes, 751
Etiology, of acute suppurative thyroiditis, 447
Exflagellation, in peripheral blood of a patient with malaria, 448
Extravascular spaces, effect of ratio of surface area to volume on penetration of antibiotics in an in vitro model, 423
Ferrets, evaluation of a cold-recombinant influenza virus vaccine, 780
Fibrillar surface, demonstration on amastigote form of *L. enrietii*, 758
Fimbrial hemagglutinin, of *B. pertussis*, diagnosis of whooping cough by an enzyme-linked immunosorbent assay, 741
Flourescent antibody assay, direct, rapid diagnosis of pneumonia due to *L. pneumophila* serogroup 1, 444
5-Fluorocytosine, treatment of experimental cryptococcal meningitis, 429
Foreign body infection, pathogenesis in an animal model, 487
Frog virus 3 hepatitis, possible role of endotoxin in the protective effect of colectomy, 594
Fungi, quantity and species, in patients with hematologic

malignancies and acute fungal stomatitis, 101
Gastroenteritis
acute viral, detection of Snow Mountain agent by immune electron microscopy, 184
due to Norwalk virus, outbreak associated with a municipal water system, 190
Genetic transformation test, on mailed clinical specimens, diagnosis of gonorrhea, 275
Genital herpes, pathogenesis of primary infection in guinea pigs, 397
Gentamicin
disturbed intrarenal distribution in experimental pyelonephritis due to *E. coli*, 436
influence of phototherapy on pharmacokinetics of gentamicin in neonates with jaundice, 566
intrarenal concentrations, significance for the outcome of experimental pyelonephritis in rats, 91
synergy with ampicillin, in experimental meningitis due to group B streptococci, 100
Glasgow, Lowell A., a tribute, 306
Glucose-6-phosphate dehydrogenase deficiency and Mediterranean fever in northern Sardinia, 301
Gonorrhea, diagnosis using a genetic transformation test on mailed clinical specimens, 275
Haemophilus influenzae type b
antibodies to lipopolysaccharide in acute-phase sera of patients with meningitis, 714
monoclonal antibody to the capsular polysaccharide as protection from infection, 249
piliated, adherence to human oropharyngeal cells, 564
relationship between human mucosal and serum antibody to capsular polysaccharide, 243
Haemophilus influenzae, relation between the specificity of IgA proteases and serotypes, 266
Hantaan virus
isolated from wild urban rats, 638
laboratory-acquired Korean hemorrhagic fever, 645
Hemolytic activity, of *S. aureus*, associated with toxic-shock syndrome, 98
Hepatitis A virus, antibodies in young inmates, 442
Hepatitis B surface antigen
chronic active hepatitis, natural course in Taiwan, 205
prevalence among male Saudi Arabians, 446
Hepatitis B virus
incidence of infections in preschool children in Taiwan, 198
institutional outbreak related to a human biting carrier, 652
Hepatitis B, prevalence of infection and factors related to transmission in homosexual men, 7
Hepatitis
chronic active, hepatitis B surface antigen-positive, natural course in Taiwan, 205
due to frog virus 3, role of endotoxin in the protective effect of colectomy in rats, 594
infection with delta agent in Sweden, 472
Herpes simplex labialis, treatment with topical acyclovir in polyethylene glycol, 85
Herpes simplex virus
antigen, in vitro lymphocyte transformation response after marrow transplant, effect of indomethacin, 289
experimental cutaneous and genital infections, failure of 2-deoxy-D-glucose as treatment, 159
human immune response, 292
inhibition of cellular cytotoxicity of leukocytes by intralipid for infected cells, 64
pathogenesis of primary genital infection in guinea pigs, 397
physical analysis of resistance to adenine arabinoside and *E*-5-(2-bromovinyl)-2′-deoxuridine, 167
recurrence of infection after dental extraction, 707
serum amyloid A levels in infected patients, 443
type 1
pathogenicity of an acyclovir-resistant strain from an immunodeficient child, 673
recovery from cerebrospinal fluid of a patient with herpetic proctitis and meningitis, 584
role of interferon in resistance of C57BL/6 mice, 405
Herpesvirus, bovine, type 1, interactions with neurons in vitro, 97
Histopathology, effect of defective-interfering Semliki Forest virus on infection with virulent Semliki Forest virus in mice, 411
Hodgkin's disease, microbicidal activity of peripheral blood monocytes against *T. gondii* in patients, 565, 835
Homosexual men
prevalence of infection and factors related to transmission of hepatitis B, 7
with Kaposi's sarcoma and lymphadenopathy, presence of acid-labile human leukocyte interferon, 451
Hydrophobicity, surface, of group A streptococci, 576
Hypersensitivity, delayed-type, to dengue virus in mice, induction and characterization, 235
IDSA Dialogue, interferon therapy, trails for multiple sclerosis, 109, 716
IgA proteases, of *H. influenzae*, relation of specificity to serotypes, 266
Imidazole antibiotics, antifungal action of amphotericin B in combination, 138
Immune electron microscopy, detection of the Snow Mountain agent of acute gastroenteritis, 184
Immune response, human, to herpes simplex virus, 292
Immunodeficient child, isolation of acyclovir-resistant herpes simplex virus type 1, 673
Immunoglobulin, role of antibody in potentiation of varicella-zoster virus, 524
Immunoresponsiveness, in humans with acute babesiosis, 369
Immunosuppressed patients, association of prior nocardiosis and subsequent occurrence of nontuberculous mycobacteriosis, 211
Indomethacin, effect on in vitro lymphocyte transformation responses after marrow transplant, 289
Infants, serology of *C. trachomatis*, 530
Infectious Diseases Society of America
program of the 20th Annual Meeting, 311
tentative five-year meeting schedule, 311
Influenza A virus, cold-adapted recombinant vaccines in seronegative young children, 71
Influenza A/USSR/77 virus, lack of parallelism in antibody responses after infection, 827
Influenza virus
evaluation of cold-recombinant vaccine in ferrets, 780
temperature-sensitive vs. wild-type, bronchial reactivity in

experimental infections, 468
survival on environmental surfaces, 47
Influenza, and mortality, 313
Instructions to Authors, 120
Interferon
acid-labile human leukocyte, in homosexual men with Kaposi's sarcoma and lymphadenopathy, 451
human leukocyte, combined with vidarabine, treatment of cytomegalovirus pneumonia after marrow transplant, 80
in serum of renal transplant patients, 833
pharmacokinetics after administration of modified polyriboinosinic-polyribocytidylic acid and amphotericin B, 819
role in resistance of C57BL/6 mice to herpes simplex virus type 1, 405
trials as therapy for multiple sclerosis, 109, 716
Intestinal flora, resistance to enteric colonization with *C. botulinum* in mice, 791
Intralipid, inhibition of cellular cytotoxicity of leukocytes for herpes simplex virus–infected cells, 64
Invasiveness, correlation with plasmid in enteroinvasive strains of *E. coli*, 706
Ion channel inhibitors, effect on the cytopathogenicity of *E. histolytica*, 335
Japan, field trial of trivalent measles-rubella-mumps vaccine, 709
Jarisch-Herxheimer reaction, pathogenesis and evidence against a role for classical endotoxin, 606
Jaundice, influence of phototherapy on pharmacokinetics of gentamicin in neonates, 566
Kaposi's sarcoma, acid-labile human leukocyte interferon in homosexual men, 451
Ketoconazole, treatment of experimental cryptococcal meningitis, 429
Kidney, limitation of growth in rats by acquiescent renal infection, 708
Korean hemorrhagic fever
isolation of Hantaan virus from wild urban rats, 638
laboratory-acquired infections with Hantaan virus, 645
β-Lactam antibiotics, effect on resistance of digestive tract of mice to colonization, 417, 835
β-Lactamases, derepression by cefoxitin and resistance of *E. cloacae* to cefamandole, 34
Lassa virus, experimental infection of rhesus monkeys, 360
Legionella pneumophila
effect of toxin on phagocytosis by polymorphonuclear leukocytes, 328
role of aerosolized tap water from respiratory devices in nosocomial Legionnaires' disease, 460
serogroup 1, rapid diagnosis of pneumonia, 444
survival after decontamination with paraformaldehyde gas, 291
Legionnaires' disease, nosocomial, role of aerosolized tap water from respiratory devices, 460
Leishmania enriettii amastigotes, demonstration of fibrillar surface, 758
Leukocytes
effects on the dimorphism of *C. immitis*, 56
human polymorphonuclear, interaction with two different strains of type 1 fimbriae-bearing *E. coli*, 751
inhibition of cellular cytotoxicity for herpes simplex virus–infected cells by intralipid, 64
Leukoencephalopathy, and amphotericin B methyl ester, 125, 173
Leukopenia, thrombocytopenia, and complement activation associated with bacteremia, role of peptidoglycan from *S. aureus*, 227
Lipopolysaccharide
antibodies in the acute-phase sera of patients with meningitis due to *H. influenzae* type b, 714
mechanisms of host response in the presence of actinomycin D, 746
Lymphadenitis, tuberculous, a survey of 94 cases, 710
Lymphadenopathy, acid-labile human leukocyte interferon in homosexual men, 451
Lymphocytes
transformation responses, after marrow transplant, effect of indomethacin, 289
role in infections due to Epstein-Barr virus and cytomegalovirus, 300
Macrophages, alveolar, effect of protein deficiency in fetal rats on postnatal structure and function, 498
Malaria, exflagellation and microgametes in peripheral blood of an infected patient, 448
Malignancies, hematologic, acute fungal stomatitis, 101
Malnutrition, protein, in fetal rats, effect on postnatal structure and function of alveolar macrophages, 498
Marrow transplant
effect of indomethacin on in vitro lymphocyte transformation responses, 289
treatment with combined vidarabine and human leukocyte interferon, 80
Maxillary sinuses, bacteriology in patients with cystic fibrosis, 589
McDermott, Walsh, a tribute, 303
Measles-mumps-rubella trivalent vaccine, field trial in Japan, 709
Measles virus, increase of thymus-derived cells after restimulation, 445
Medical Perspective, present chemotherapy for tuberculosis, 698
Mediterranean fever, and glucose-6-phosphate dehydrogenase deficiency in northern Sardinia, 301
Meningitis
bacterial, early response of complement-mediated opsonic activity in cerebrospinal fluid, 310
cryptococcal, treatment of experimental infection with amphotericin B, 5-fluorocytosine, and ketoconazole, 429
due to *H. influenzae* type b, antibodies to lipopolysaccharide in acute-phase serum, 714
experimental, due to group B streptococci, synergy between ampicillin and gentamicin, 100
herpetic, recovery of two strains of herpes simplex virus type 1 from cerebrospinal fluid, 584
purulent, increase in titers of antibodies to *M. pneumoniae* in patients, 284
staphylococcal, followed by diabetes insipidus and anterior pituitary dysfunction, 102
Microgametes, in peripheral blood of a patient with malaria, 448
Modified polyriboinosinic-polyribocytidylic acid and amphotericin B, pharmacokinetics of interferon after administra-

tion, 819
Monoclonal antibody, to capsular polysaccharide of *H. influenzae* type b, protection from infection, 249
Monocytes, peripheral blood, from patients with Hodgkin's disease, role in microbicidal activity against *T. gondii*, 565, 835
Mortality, and influenza, 313
Mozambique virus, experimental infection of rhesus monkeys, 360
Multiple sclerosis, trials of interferon therapy, 109, 716
Mumps-measles-rubella trivalent vaccine, field trial in Japan, 709
Mycobacteria, nontuberculous, isolation in the United States, 1980, 829
Mycobacterial antigens, sensitivity in tubercular patients in Rio de Janeiro, 834
Mycobacteriosis, nontuberculous, in immunosuppressed patients, association of prior nocardiosis and subsequent occurrence, 211
Mycobacterium avium-intracellulare, protective effects of bacille Calmette-Guérin, 450
Mycoplasma hominis, peritonitis in a renal transplant recipient, 713
Mycoplasma pneumoniae, increase in titers of antibodies in patients with purulent meningitis, 284
Mycoses, systemic, serodiagnosis, 570
Mycotic infections, leukoencephalopathy in patients treated with amphotericin B methyl ester, 125
Natural infection, of Suffolk sheep with scrapie virus, 657
Neisseria lactamica, epidemiology of infections in a northern Nigerian community, 626
Neisseria meningitidis
  epidemiology of infections in a northern Nigerian community, 626
  pili and outer-membrane appendages on organisms in cerebrospinal fluid of an infant, 568
Neonates, jaundiced, influence of phototherapy on pharmacokinetics of gentamicin, 566
Neurons, interaction with bovine herpesvirus type 1 in vitro, 97
Neurotoxicity, in patients treated with amphotericin B methyl ester, 125
Neutropenia
  and colchicine, effect on protection against pyelonephritis in rats by suppression of acute suppuration, 220
  induced by vancomycin, 575
Nigeria, epidemiology of infections due to *N. meningitidis* and *N. lactamica* in a northern community, 626
Nocardiosis, prior, association with subsequent occurrence of nontuberculous mycobacteriosis in immunosuppressed patients, 211
Norwalk virus
  diarrhea in families, 116
  outbreak of gastroenteritis, associated with a municipal water system, 190
Opsonic activity, complement-mediated, early response in cerebrospinal fluid during bacterial meningitis, 310
Oropharyngeal cells, human, adherence of piliated *H. influenzae* type b, 564
Outer membrane proteins, of *P. aeruginosa* serotype strains, 770
Paraformaldehyde gas, survival of *L. pneumophila* after decontamination, 291
Pathogenesis
  of genital herpes in guinea pigs, 397
  of the Jarisch-Herxheimer reaction, development of an animal model and the role of endotoxin, 606
Pathogenicity, of acyclovir-resistant herpes simplex virus type 1 from an immunodeficient child, 673
Penicillin, induction of unstable intracellular formation of spheroplasts by rickettsiae, 147
Peptidoglycan, from *S. aureus*, role in leukopenia, thrombocytopenia, and complement activation associated with bacteremia, 227
Peritonitis, due to *M. hominis*, in a renal transplant recipient, 713
Phagocytosis, by human polymorphonuclear leukocytes, effects of *L. pneumophila* toxin, 328
Pharmacokinetics, of interferon, after administration of modified polyriboinosinic-polyribocytidylic acid and amphotericin B, 819
Phototherapy, influence on pharmacokinetics of gentamicin in jaundiced neonates, 566
Phytohemagglutinin, in vitro lymphocyte transformation response after marrow transplant, effect of indomethacin, 289
Pili, on *N. meningitidis*, in the cerebrospinal fluid of an infant, 568
Pituitary dysfunction, anterior, after staphylococcal meningitis in a patient with diabetes insipidus, 102
Plasmid, correlation with invasiveness in enteroinvasive strains of *E. coli*, 706
Plasmid-mediated virulence, in *Shigella* species, 99
Plasmodium vivax, occurrence of exflagellation and microgametes in peripheral blood of a patient with malaria, 448
Pneumonia
  due to *C. trachomatis*, diagnosis in infants by detection of IgM antibodies, 530
  due to cytomegalovirus, treatment with combined vidarabine and human leukocyte interferon, 80
  due to *L. pneumophila* serogroup 1, rapid diagnosis, 444
  due to *P. aeruginosa*, efficacy of third-generation cephalosporins in treatment of guinea pigs, 567
Pneumonitis, due to murine cytomegalovirus, pathogenesis, 388
Poliomyelitis
  control in developing countries, 540
  in China, 552
  in the United States, 1969–1981, 558
Polyene antibiotics, antifungal action of amphotericin B in combination, 138
Polyethylene glycol, treatment of herpes simplex labialis with topical acyclovir, 85
Polymorphonuclear leukocytes
  defective adherence to nylon induced by thallasemic serum, 52
  human
    effects of *L. pneumophila* toxin on oxidative processes and bacterial killing, 328
    interaction with two different strains of type 1 fimbriae-bearing *E. coli*, 751
Polysaccharide, capsular, of *H. influenzae* type b

protection from infection by monocloncal antibody, 249
relationship between human mucosal and serum antibody, 243
Presidents' Pages, control of poliomyelitis, 540
Proctitis, herpetic, recovery of two strains of herpes simplex virus type 1 from cerebrospinal fluid, 584
Prophylaxis
for human scrub typhus, with doxycycline, 811
with bacteriostatic antibiotics, against experimental streptococcal endocarditis in rats, 806
Protease activity, purification, characterization, and strain virulence of *E. histolytica* cytotoxin, 616
Protein deficiency, in fetal rats, effect on postnatal structure and function of alveolar macrophages, 498
Pseudomonas aeruginosa
efficacy of third-generation cephalosporins in the treatment of pneumonia in guinea pigs, 567
outer membrane proteins of serotype strains, 770
selection of aminoglycoside resistant variants in an in vivo model, 691
Pyelonephritis
emphysematous, caused by *C. tropicalis*, 569
experimental, due to *E. coli*, disturbed intrarenal distribution of gentamicin, 436
protection by suppression of acute suppuration, effect of colchicine and neutropenia in rats, 220
significance of intrarenal concentrations of gentamicin for the outcome in rats, 91
Radioimmunoassay, rapid diagnosis of pneumonia due to *L. pneumophila* serogroup 1, 444
Rammelkamp, Charles H., Jr., a tribute, 308
Rats, wild urban, isolation of Hantaan virus, 638
Raw milk, as a vehicle for transmission of infectious disease agents in the United States, 440
Renal infection, acquiescent, limitation of kidney growth in rats, 708
Renal transplant candidates, and vaccinated normal volunteers, detection of antibody to cytomegalovirus early antigen, 255
Renal transplant recipients
interferon in serum, 833
peritonitis due to *M. hominis*, 713
Resistance
of C57BL/6 mice treated with interferon to herpes simplex virus type 1, 405
to chronic infection with *B. abortus* in mice, genetic and cellular basis, 381
Respiratory devices, role of aerosolized tap water in nosocomial Legionnaires' disease, 460
Rhesus monkeys, experimental infection with Lassa and Mozambique viruses, 360
Rickettsia prowazekii, penicillin-induced unstable intracellular formation of spheroplasts, 147
Rickettsia tsutsugamushi
doxycycline prophylaxis for human scrub typhus, 811
penicillin-induced unstable intracellular formation of spheroplasts, 147
Rocky Mountain spotted fever, surveillance in the United States, 1978–1980, 297
Rotavirus
human, rapid multiple-determinant enzyme immunoassay for detection, 43
infections and the sompe syndrome, 117
Rubella-measles-mumps trivalent vaccine, field trial in Japan, 709
Salmonella
isolates, from urine in the United States, 1968–1979, 293
raw milk as a vehicle for transmission in the United States, 440
Salmonella dublin, infections in the United States, 1979–1980, 322
Salmonella typhi, precise estimation of numbers of chronic carriers in Santiago, Chile, 724
Sardinia, northern, glucose-6-phosphate dehydrogenase deficiency and Mediterranean fever, 301
Saudi Arabia, prevalence of hepatitis B surface antigen among men, 446
Scherer, William Franklin, a tribute, 310
Schistosoma mansoni, clinical characteristics and response to therapy in heavily infected Egyptian children, 20
Scrapie virus, natural infection of Suffolk sheep, 657
Scrub typhus, human, prophylaxis with doxycycline, 811
Semliki Forest virus, defective-interfering, effect on histopathology of infection with virulent virus in mice, 411
Serodiagnosis, of systemic mycoses, 570
Serology, of *C. trachomatis* in infants with pneumonia, 530
Serotypes, relation to specificity of IgA proteases of *H. influenzae*, 266
Serum amyloid A, levels in patients with infections due to cytomegalovirus, varicella-zoster, and herpes simplex virus, 443
Sexual intercourse, association with urinary tract infection, 579
Sheep, natural infection with scrapie virus, 657
Shigella
epidemiologic and clinical features of patients in a diarrheal disease hospital in Bangladesh, 177
species, plasmid-mediated virulence, 99
Shigella dysenteriae, type 1-like cytotoxin, production by *E. coli*, 763
Snow Mountain agent, of acute gastroenteritis, detection by immune electron microscopy, 184
Sompe syndrome, and rotavirus infections, 117
Spheroplasts, penicillin-induced unstable intracellular formation by rickettsiae, 147
Spleen cell functions, impairment in immunocompetent mice by infection with coxsackievirus B3, 797
Sporothrix schenckii, effect of temperature on susceptibility to amphotericin B, 711
Staphylococci
coagulase-negative, adherence and growth on surfaces of intravenous catheters, 479
meningitis, followed by diabetes insipidus and anterior pituitary dysfunction, 102
Staphylococcus aureus
associated with toxic-shock syndrome, hemolytic action, 98
foreign body infection in an animal model, 487
peptidoglycan, role in leukopenia, thrombocytopenia, and complement activation in bacteremia, 227
recovery of enterotoxin F from breast milk of a woman with

toxic-shock syndrome, 456
use in absorption step of improved test for IgM antibody to Epstein-Barr virus, 518
Statement of Editorial Policy, 119
Stomatitis, acute fungal, in patients with hematologic malignancies, 101
Streptococcal endocarditis, successful prophylaxis with bacteriostatic antibiotics in experimentally infected rats, 806
Streptococci
group A
role of enocin in protection against infection, 683
surface hydrophobicity, 576
group B
synergy between ampicillin and gentamicin in experimental meningitis, 100
type Ia, antibody-independent activation of C1, 665
nutritionally variant, antimicrobial susceptibility, 536
Streptococcus salivarius, production of enocin, protection against infection due to group A streptococci, 683
Suppuration, acute, suppression of protection against pyelonephritis in rats, effect of colchicine and neutropenia, 220
Surface area to volume ratio, effect on penetration of antibiotics into extravascular spaces in an in vitro model, 423
Synergy, between ampicillin and gentamicin in experimental meningitis due to group B streptococci, 100
Taiwan
incidence of hepatitis B virus infections in preschool children, 198
natural course of hepatitis B surface antigen–positive chronic active hepatitis, 205
Tetanus toxin, IgE antibody, elevation of levels in individuals vaccinated with diphtheria-pertussis-tetanus vaccine, 290
Thalassemia, defective adherence of polymorphonuclear leukocytes to nylon induced by serum, 52
Thrombocytopenia, leukopenia, and complement activation associated with bacteremia, role of peptidoglycan from *S. aureus*, 227
Thymus-derived cells, increase in number after restimulation with measles virus, 445
Thyroiditis, acute suppurative, etiologic factors, 447
Towne strain cytomegalovirus vaccine, detection of antibody to cytomegalovirus early antigen in normal volunteers, 255
Toxicity, endotoxin, possible alterations of normal mechanisms in vivo by actinomycin D, 746
Toxic-shock syndrome
hemolytic action of *S. aureus*, 98
recovery of staphylococcal enterotoxin F from breast milk, 456
Toxoplasma gondii, microbicidal activity of peripheral blood monocytes from patients with Hodgkin's disease, 565, 835
Toxoplasmosis, acquired, evidence of reinfection in concomitant cases in children of a single family, 30
Transplant, marrow, treatment with combined vidarabine and human leukocyte interferon, 80
Treponema pallidum, in the animal model of the Jarisch-Herxheimer reaction, 606
Tributes
Lowell A. Glasgow, 306
Walsh McDermott, 303
Charles H. Rammelkamp, Jr., 308
William Franklin Scherer, 310
Trichomonas vaginalis, zinc sensitivity, in vitro studies and clinical implications, 341
Tuberculosis
bone and joint, serologic diagnosis by an enzyme-linked immunosorbent assay, 280
patients in Rio de Janeiro, sensitivity to mycobacterial antigens, 834
present chemotherapy, 698
Tuberculous lymphadenitis, a survey of 94 cases, 710
Typhoid fever, endemic, precise estimation of numbers of chronic carriers in Santiago, Chile, 724
United States
enteroviral disease, 1970–1979, 103
isolation of nontuberculous mycobacteria, 1980, 829
poliomyelitis, 1969–1981, 558
Salmonella isolates from urine, 1968–1979, 293
S. dublin infections 1979–1980, 322
surveillance of Rocky Mountain spotted fever, 1978–1980, 297
Urethral infections, asymptomatic, due to *C. trachomatis* in male U.S. military personnel, 828
Urinary tract infection, association with sexual intercourse, 579
Urine, *Salmonella* isolates in the United States, 1968–1979, 293
Vaccine
cold-adapted recombinant influenza A virus, in seronegative young children, 71
cold-recombinant influenza virus, evaluation in ferrets, 780
oral poliovirus, use in China, 552
poliovirus, formalin-inactivated vs. attenuated oral, 540
trivalent measles-rubella-mumps, field trial in Japan, 709
Vancomycin, role in neutropenia, 575
Varicella-zoster virus
antibody response after natural or vaccine-induced infection, 260
potentiation of neutralization by antibody to immunoglobulin, 524
serum amyloid A levels in infected patients, 443
Vidarabine, combined with human leukocyte interferon, treatment of cytomegalovirus pneumonia after marrow transplant, 80
Virulence
plasmid-mediated, in *Shigella* species, 99
purification, characterization, and protease activity of *E. histolytica* cytotoxin, 616
Water system, municipal, outbreak of gastroenteritis due to Norwalk virus, 190
Whooping cough, serologic diagnosis by an enzyme-linked immunosorbent assay using fimbrial hemagglutinin as antigen, 741
Yersinia enterocolitica, infection in children with abdominal pain, 705
Zaire, antibody to Ebola virus in guinea pigs, 483
Zinc sensitivity, of *T. vaginalis*, in vitro studies and clinical implications, 341

CONTENTS

Original Articles

Viral Infections

Excretion of Cytomegalovirus in Mothers: Observations after Delivery of Congenitally Infected and Normal Infants — Robert F. Pass, Sergio Stagno, Meyer E. Dworsky, Richard J. Smith, and Charles A. Alford — 1

Hepatitis B in Homosexual Men: Prevalence of Infection and Factors Related to Transmission — M. T. Schreeder, S. E. Thompson, S. C. Hadler, K. R. Berquist, A. Zaidi, J. E. Maynard, D. Ostrow, F. N. Judson, E. H. Braff, T. Nylund, J. N. Moore, Jr., P. Gardner, I. L. Doto, and G. Reynolds — 7

An Epidemic of Acute Hemorrhagic Conjunctivitis Due to Coxsackievirus A24 — Saroja Christopher, Sheila Theogaraj, Sharad Godbole, and T. Jacob John — 16

Parasitic Infections

Clinical Characteristics and Response to Therapy in Egyptian Children Heavily Infected with *Schistosoma mansoni* — G. Thomas Strickland, William Merritt, A. El-Sahly, and Farid Abdel-Wahab — 20

Concomitant Cases of Acquired Toxoplasmosis in Children of a Single Family: Evidence of Reinfection — Sergio G. Coutinho, Maria Augusta Leite, Maria Regina Amendoeira, and Mauro Celio Marzochi — 30

Medical Microbiology

Resistance to Cefamandole: Derepression of β-Lactamases by Cefoxitin and Mutation in *Enterobacter cloacae* — Thomas D. Gootz, Christine C. Sanders, and Richard V. Goering — 34

Rapid Multiple-Determinant Enzyme Immunoassay for the Detection of Human Rotavirus — Robert H. Yolken and Flora Leister — 43

Survival of Influenza Viruses on Environmental Surfaces — B. Bean, B. M. Moore, B. Sterner, L. R. Peterson, D. N. Gerding, and H. H. Balfour, Jr. — 47

Leukocyte Pathophysiology

Defective Adherence of Polymorphonuclear Leukocytes to Nylon Induced by Thalassemic Serum — Harry P. Bassaris, Popi E. Lianou, Athanasius T. Skoutelis, John T. Papavassiliou, and John P. Phair — 52

Leukocyte Effects on the Dimorphism of *Coccidioides immitis* — John N. Galgiani, Rosemary Hayden, and Claire M. Payne — 56

Inhibition of Cellular Cytotoxicity of Leukocytes for Herpes Simplex Virus–Infected Cells in Vitro and in Vivo by Intralipid — Lian-Sim Loo, Jy-Ping Tang, and Steve Kohl — 64

Immunization and Therapeutics

Cold-Adapted Recombinant Influenza A Virus Vaccines in Seronegative Young Children — Peter F. Wright, Nobuhiko Okabe, Kelly T. McKee, Jr., H. F. Maassab, and David T. Karzon — 71

Treatment of Cytomegalovirus Pneumonia after Marrow Transplant with Combined Vidarabine and Human Leukocyte Interferon — Joel D. Meyers, Robert W. McGuffin, Yvonne J. Bryson, Kari Cantell, and E. Donnall Thomas — 80

Treatment of Herpes Simplex Labialis with Topical Acyclovir in Polyethylene Glycol — S. L. Spruance, L. E. Schnipper, J. C. Overall, Jr., E. R. Kern, B. Wester, J. Modlin, G. Wenerstrom, C. Burton, K. A. Arndt, G. L. Chiu, and C. S. Crumpacker — 85

Significance of Intrarenal Concentrations of Gentamicin for the Outcome of Experimental Pyelonephritis in Rats — Michel G. Bergeron, Alain Bastille, Celine Lessard, and Paul M. Gagnon — 91

Data Forum

Interactions of Bovine Herpesvirus Type 1 and Neurons in Vitro — E. Jane Homan and Bernard C. Easterday — 97

Hemolytic Activity of Toxic-Shock Syndrome–Associated *Staphylococcus aureus* — Anthony W. Chow, Marie J. Gribble, and Karen H. Bartlett — 98

Plasmid-Mediated Virulence in *Shigella* Species — R. M. Silva, M. R. F. Toledo, and L. R. Trabulsi — 99

Synergy Between Ampicillin and Gentamicin in Experimental Meningitis Due to Group B Streptococci — W. Michael Scheld, George M. Alliegro, Mary R. Field, and James P. Brodeur — 100

Acute Fungal Stomatitis in Patients with Hematologic Malignancies: Quantity and Species of Fungi — Irma Kostiala, Anja A. I. Kostiala, Asko Kahanpää, and Erkki Elonen — 101

Clinical Brief

Diabetes Insipidus and Anterior Pituitary Dysfunction after Staphylococcal Meningitis and Multiple Brain Abscesses — J. M. Gatell, E. Esmatjes, C. Serra, M. Aymerich, and J. Garcia SanMiguel — 102

Institutional Report

Centers for Disease Control

Enteroviral Disease in the United States, 1970–1979 — Melinda Moore — 103

IDSA Dialogue

Trials of Interferon Therapy for Multiple Sclerosis — J. Abb, F. Deinhardt, H. Zander, R. B. Tenser, F. Rapp, J.-M. Goust, H. H. Fudenberg, J. Vilček, M. Ho, T. C. Merigan, M. B. A. Oldstone, and G. G. Jackson — 109

Correspondence

Diarrhea Due to Norwalk Virus in Families — Larry K. Pickering, Herbert L. DuPont, Neil R. Blacklow, and George Cukor — 116

Rotavirus Infections and the Sompe Syndrome — A. G. Gordon — 117

Statement of Editorial Policy 119

Instructions to Authors 120

Volume 146 • *August 1982* • *Number 2*

CONTENTS

Original Articles

Antimicrobial Agents and Therapeutics

Leukoencephalopathy in Patients Treated with Ampnotericin B Methyl Ester — William G. Ellis, Raymond A. Sobel, and Surl L. Nielsen — 125

Antifungal Action of Amphotericin B in Combination with Other Polyene or Imidazole Antibiotics — Janina Brajtburg, Donald Kobayashi, Gerald Medoff, and George S. Kobayashi — 138

Penicillin-Induced Unstable Intracellular Formation of Spheroplasts by Rickettsiae — C. L. Wisseman, Jr., D. J. Silverman, A. Waddell, and D. T. Brown — 147

Failure of 2-Deoxy-D-Glucose in the Treatment of Experimental Cutaneous and Genital Infections Due to Herpes Simplex Virus — Earl R. Kern, Lowell A. Glasgow, Richard J. Klein, and Alvin E. Friedman-Kien — 159

Resistance of Herpes Simplex Virus to Adenine Arabinoside and E-5-(2-Bromovinyl)-2′-Deoxyuridine: A Physical Analysis — Clyde S. Crumpacker, Lowell E. Schnipper, Patricia N. Kowalsky, and David M. Sherman — 167

Editorial

Amphotericin B Methyl Ester and Leukoencephalopathy: The Other Side of the Coin — Paul D. Hoeprich — 173

Clinical and Epidemiologic Investigation

Epidemiologic and Clinical Features of Patients Infected with *Shigella* Who Attended a Diarrheal Disease Hospital in Bangladesh — B. J. Stoll, R. I. Glass, M. I. Huq, M. U. Khan, H. Banu, and J. Holt — 177

Detection by Immune Electron Microscopy of the Snow Mountain Agent of Acute Viral Gastroenteritis — R. Dolin, R. C. Reichman, K. D. Roessner, T. S. Tralka, R. T. Schooley, W. Gary, and D. Morens — 184

Gastroenteritis Due to Norwalk Virus: An Outbreak Associated with a Municipal Water System — Jonathan E. Kaplan, Richard A. Goodman, Lawrence B. Schonberger, Edwin C. Lippy, and G. William Gary — 190

Incidence of Hepatitis B Virus Infections in Preschool Children in Taiwan — R. P. Beasley, L.-Y. Hwang, C.-C. Lin, M.-L. Leu, C. E. Stevens, W. Szmuness, and K.-P. Chen — 198

The Natural Course of Hepatitis B Surface Antigen–Positive Chronic Active Hepatitis in Taiwan — K.-J. Lo, M. J. Tong, M.-C. Chien, Y.-T. Tsai, Y.-F. Liaw, K.-C. Yang, H. Chian, H.-C. Liu, and S.-D. Lee — 205

Association of Prior Nocardiosis and Subsequent Occurrence of Nontuberculous Mycobacteriosis in a Defined, Immunosuppressed Population	Gary L. Simpson, Thomas A. Raffin, and Jack S. Remington	211
Pathogenesis of Infection		
Protection Against Chronic Pyelonephritis in Rats by Suppression of Acute Suppuration: Effect of Colchicine and Neutropenia	Jacques Bille and Michel P. Glauser	220
Role of Peptidoglycan from *Staphylococcus aureus* in Leukopenia, Thrombocytopenia, and Complement Activation Associated with Bacteremia	J. S. Spika, P. K. Peterson, B. J. Wilkinson, D. E. Hammerschmidt, H. A. Verbrugh, J. Verhoef, and P. G. Quie	227
Induction and Characterization of Delayed-Type Hypersensitivity to Dengue Virus in Mice	T. Pang, P. Y. Wong, and R. Pathmanathan	235
Immunology and Host Defense		
Relationship Between Naturally Occurring Human Mucosal and Serum Antibody to the Capular Polysaccharide of *Haemophilus influenzae* Type b	Michael E. Pichichero and Richard A. Insel	243
Protection from Infection with *Haemophilus influenzae* Type b by Monoclonal Antibody to the Capsule	Frank Gigliotti and Richard A. Insel	249
Detection of Antibody to Cytomegalovirus Early Antigen in Vaccinated, Normal Volunteers and Renal Transplant Candidates	Allan D. Friedman, Toru Furukawa, and Stanley A. Plotkin	255
Antibody Response to Varicella-Zoster Virus after Natural or Vaccine-Induced Infection	S. Bogger-Goren, K. Baba, P. Hurley, H. Yabuuchi, M. Takahashi, and P. L. Ogra	260
Microbiology and Diagnosis		
Relationship Between the Specificity of IgA Proteases and Serotypes in *Haemophilus influenzae*	Martha H. Mulks, Stephen J. Kornfeld, Blas Frangione, and Andrew G. Plaut	266
Diagnosis of Gonorrhea Using a Genetic Transformation Test on Mailed Clinical Specimens	Harold W. Jaffe, Stephen J. Kraus, Teresa A. Edwards, Shannon S. Weinberger, and Leonard Zubrzycki	275
Serologic Diagnosis of Bone and Joint Tuberculosis by an Enzyme-Linked Immunosorbent Assay	Adam B. Stroebel, Thomas M. Daniel, James H. K. Lau, John C. Y. Leong, and Harold Richardson	280
Increase in Titers of Antibodies to *Mycoplasma pneumoniae* in Patients with Purulent Meningitis	Marjaana Kleemola and Helena Käyhty	284
Data Forum		
Effect of Indomethacin on the in Vitro Lymphocyte Transformation Response to Herpes Simplex Virus Antigen and Phytohemagglutinin after Marrow Transplant	Joel D. Meyers, James C. Wade, and Lila M. Day	289
Elevation of Levels of IgE Antibody to Tetanus Toxin in Individuals with Diphtheria-Pertussis-Tetanus Vaccine	Tyoku Matuhasi and Hakuo Ikegami	290
Survival of *Legionella pneumophila* after Decontamination with Paraformaldehyde Gas	Washington C. Winn, Jr., Gerald S. Davis, Donald N. Weinberg, Harry N. Beaty	291

Clinical Brief

Human Immune Response to Herpes Simplex Virus — Steve Kohl — 292

Institutional Reports

Centers for Disease Control

Salmonella Isolates from Urine in the United States, 1968–1979 — Rickey Wilson and Roger A. Feldman — 293

Surveillance of Rocky Mountain Spotted Fever in the United States, 1978–1980 — Kenneth W. Bernard, Charles G. Helmick, Jonathan E. Kaplan, and William G. Winkler — 297

Correspondence

The Role of Lymphocytes in Infections Due to Epstein-Barr Virus and Cytomegalovirus — Milan Fiala and Satya Chatterjee — 300

Reply — Monto Ho — 301

Glucose-6-Phosphate Dehydrogenase Deficiency and Mediterranean Fever in Northern Sardinia — T. Meloni and G. Forteleoni — 301

Reply — Henry N. Kirkman and David H. Walker — 302

Tributes

Walsh McDermott, 1909–1981 — Leighton E. Cluff — 303

Lowell A. Glasgow, 1932–1982 — John M. Matsen, James C. Overall, and Harry R. Hill — 306

Charles H. Rammelkamp, Jr., 1911–1981 — Frederick C. Robbins — 308

William Franklin Scherer, 1925–1982 — Robert W. Dickerman — 310

Erratum (145:635–646, 1982) — 310

From the Infectious Diseases Society of America

Program of the 20th Annual Meeting — 311

Tentative Five-Year Meeting Schedule — 311

Volume 146 • *September 1982* • *Number 3*

CONTENTS

Original Articles

Epidemiology

Mortality and Influenza — W. Paul Glezen, Ardath A. Payne, Dorothy Nelson Snyder, and Tom D. Downs — 313

Salmonella dublin Infections in the United States, 1979–1980 — David N. Taylor, Joseph M. Bied, J. Stuart Munro, and Roger A. Feldman — 322

Medical Microbiology

The Effects of *Legionella pneumophila* Toxin on Oxidative Processes and Bacterial Killing of Human Polymorphonuclear Leukocytes — Richard L. Friedman, Janis E. Lochner, Robert H. Bigley, and Barbara H. Iglewski — 328

Effect of Ion Channel Inhibitors on the Cytopathogenicity of *Entamoeba histolytica* — Jonathan I. Ravdin, Nick Sperelakis, and Richard L. Guerrant — 335

Zinc Sensitivity of *Trichomonas vaginalis:* In Vitro Studies and Clinical Implications — John N. Krieger and Michael F. Rein — 341

Experimental Medicine

Increased Arabinitol Levels in Experimental Candidiasis in Rats: Arabinitol Appearance Rates, Arabinitol/Creatinine Ratios, and Severity of Infection — B. Wong, E. M. Bernard, J. W. M. Gold, D. Fong, A. Silber, and D. Armstrong — 346

The Arabinitol Appearance Rate in Laboratory Animals and Humans: Estimation from the Arabinitol/Creatinine Ratio and Relevance to the Diagnosis of Candidiasis — Brian Wong, Edward M. Bernard, Jonathan W. M. Gold, Danny Fong, and Donald Armstrong — 353

Experimental Infection of Rhesus Monkeys with Lassa Virus and a Closely Related Arenavirus, Mozambique Virus — D. H. Walker, K. M. Johnson, J. V. Lange, J. J. Gardner, M. P. Kiley, and J. B. McCormick — 360

Host Resistance

Immunoresponsiveness in Acute Babesiosis in Humans — Jorge L. Benach, Gail S. Habicht, and Max I. Hamburger — 369

Resistance and Susceptibility of Mice to Bacterial Infection. IV. Genetic and Cellular Basis of Resistance to Chronic Infection with *Brucella abortus* — Merilyn Ho and Christina Cheers — 381

Pathogenesis of Viral Infections

The Pathogenesis of Pneumonitis Due to Murine Cytomegalovirus — John D. Shanley, Edward L. Pesanti, and Kenneth M. Nugent — 388

Genital Herpes in Guinea Pigs: Pathogenesis of the Primary Infection and Description of Recurrent Disease — Lawrence R. Stanberry, Earl R. Kern, James T. Richards, Thomas M. Abbott, and James C. Overall, Jr. — 397

The Role of Interferon in the Resistance of C57BL/6 Mice to Various Doses of Herpes Simplex Virus Type 1 — R. Zawatzky, I. Gresser, E. DeMaeyer, and H. Kirchner — 405

The Effect of Defective-Interfering Semliki Forest Virus on the Histopathology of Infection with Virulent Semliki Forest Virus in Mice — C. F. Crouch, A. Mackenzie, and N. J. Dimmock — 411

Antimicrobial Drugs

Effect of β-Lactam Antibiotics on the Resistance of the Digestive Tract of Mice to Colonization — D. van der Waaij, W. Hofstra, and N. Wiegersma — 417

Effect of the Ratio of Surface Area to Volume on the Penetration of Antibiotics into Extravascular Spaces in an in Vitro Model — Linda L. Van Etta, Lance R. Peterson, Claudine E. Fasching, and Dale N. Gerding — 423

Treatment of Experimental Cryptococcal Meningitis with Amphotericin B, 5-Fluorocytosine, and Ketoconazole — John R. Perfect and David T. Durack — 429

Disturbed Intrarenal Distribution of Gentamicin in Experimental Pyelonephritis Due to *Escherichia coli* — Michel G. Bergeron, Sylvie Trottier, Céline Lessard, Denis Beauchamp, and Paul M. Gagnon — 436

Editorial

Raw Milk: A Continuing Vehicle for the Transmission of Infectious Disease Agents in the United States — James Chin — 440

Data Forum

Antibody to Hepatitis A Virus in Young Inmates — E. Sandra McFarlane and Juan A. Embil — 442

Serum Amyloid A Levels in Patients with Infections Due to Cytomegalovirus, Varicella-Zoster Virus, and Herpes Simplex Virus — I. Sarov, R. Shainkin-Kestenbaum, S. Zimlichman, Y. Winikoff, C. Chaimovitz, and M. Pras — 443

Rapid Diagnosis of Pneumonia Due to *Legionella pneumophila* Serogroup 1 — Richard B. Kohler, Washington C. Winn, Jr., John C. Girod, and L. Joseph Wheat — 444

Increase of Thymus-Derived Cells after Restimulation with Measles Virus — Katy Mandalenaki-Lambrou, Epthymia Vrachnou, Helene Vrettou, Theodore Thomaidis, and Nicolas Matsaniotis — 445

Prevalence of Hepatitis B Surface Antigen among Male Saudi Arabians — M. A. Samad Talukder, Robin Gilmore, and Robby A. Bacchus — 446

Clinical Briefs

Etiologic Factors in Acute Suppurative Thyroiditis — T. Taguchi, A. Okuno, K. Fujita, N. Sanae, H. Azuma, and H. Yoshioka — 447

Occurrence of Exflagellation and Microgametes in Peripheral Blood of a Patient with Malaria — Melvin P. Weinstein and David V. Alcid — 448

Correspondence

Varying Results of Counterimmunoelectrophoresis for the Detection of *Clostridium difficile* Toxins — Richard C. Tilton and Raymond W. Ryan — 449

Reply — J. Thomas LaMont — 449

Errata

Original Articles

Clinical Investigation

Acid-Labile Human Leukocyte Interferon in Homosexual Men with Kaposi's Sarcoma and Lymphadenopathy — E. DeStefano, R. M. Friedman, A. E. Friedman-Kien, J. J. Goedert, D. Henriksen, O. T. Preble, J. A. Sonnabend, and J. Vilček — 451

Recovery of Staphylococcal Enterotoxin F from the Breast Milk of a Woman with Toxic-Shock Syndrome	J. M. Vergeront, M. L. Evenson, B. A. Crass, J. P. Davis, M. S. Bergdoll, P. J. Wand, J. H. Noble, and G. K. Petersen	456
Nosocomial Legionnaires' Disease Caused by Aerosolized Tap Water from Respiratory Devices	Paul M. Arnow, Teresa Chou, Diane Weil, Elizabeth N. Shapiro, and Claudia Kretzschmar	460
Bronchial Reactivity in Experimental Infections with Influenza Virus	Thomas E. Hobbins, Timothy P. Hughes, Margaret B. Rennels, Brian R. Murphy, and Myron M. Levine	468
Epidemiology		
Infection with Delta Agent in Sweden: Introduction of a New Hepatitis Agent	Bengt G. Hansson, Torkil Moestrup, Anders Widell, and Erik Nordenfelt	472
Adherence and Growth of Coagulase-Negative Staphylococci on Surfaces of Intravenous Catheters	Georg Peters, Romano Locci, and Gerhard Pulverer	479
Antibody to Ebola Virus in Guinea Pigs: Tandala, Zaire	S. K. Stansfield, C. L. Scribner, R. M. Kaminski, T. Cairns, J. B. McCormick, and K. M. Johnson	483
Experimental Medicine		
Pathogenesis of Foreign Body Infection: Description and Characteristics of an Animal Model	Werner Zimmerli, Francis A. Waldvogel, Pierre Vaudaux, and Urs E. Nydegger	487
Effect of Fetal Protein Malnutrition on the Postnatal Structure and Function of Alveolar Macrophages	K. E. Schuit, R. E. Krebs, D. Rohn, and V. Steele	498
Medical Microbiology		
The Biology and Chemistry of Epstein-Barr Virus	E. Kieff, T. Dambaugh, M. Heller, W. King, A. Cheung, V. van Santen, M. Hummel, C. Beisel, S. Fennewald, K. Hennessy, and T. Heineman	506
Improved Test for IgM Antibody to Epstein-Barr Virus Using an Absorption Step with *Staphylococcus aureus*	Ciro V. Sumaya, Yasmin Ench, and Richard M. Pope	518
Potentiation of Neutralization of Varicella-Zoster Virus by Antibody to Immunoglobulin	Y. Asano, P. Albrecht, S. Stagno, and M. Takahashi	524
Serology of *Chlamydia trachomatis* in Infants	Julius Schachter, Moses Grossman, and Parvin H. Azimi	530
Antimicrobial Susceptibilities of Nutritionally Variant Streptococci	Jeffrey F. Gephart and John A. Washington II	536
Presidents' Pages		
Control of Poliomyelitis: A Continuing Paradox	Dorothy M. Horstmann	540
Special Reports		
Poliomyelitis in China	Ku Fang-chou, Dong De-xiang, Shi Ou-sheng, Niu Ji-tian, and Yang Hong-hui	552

Poliomyelitis in the United States, 1969–1981 — Melinda Moore, Peter Katona, Jonathan E. Kaplan, Lawrence B. Schonberger, and Milford H. Hatch — 558

Data Forum

Adherence of Piliated *Haemophilus influenzae* Type b to Human Oropharyngeal Cells — N. G. Guerina, S. Langermann, H. W. Clegg, T. W. Kessler, D. A. Goldmann, and J. R. Gilsdorf — 564

Microbicidal Activity of Peripheral Blood Monocytes from Patients with Hodgkin's Disease for *Toxoplasma gondii* — Rima McLeod and Randee G. Estes — 565

Influence of Phototherapy on the Pharmacokinetics of Gentamicin — John Papadatos, Demetre Kafetzis, Constantin Papadatos, Nicolas Kalpoyiannis, and Demetre Nicolopoulos — 566

Third-Generation Cephalosporins in the Treatment of Pneumonia Due to *Pseudomonas aeruginosa* in Guinea Pigs — James E. Pennington, Catherine E. Johnson, and Richard Platt — 567

Clinical Briefs

Pili and Outer Membrane Appendages on *Neisseria meningitidis* in the Cerebrospinal Fluid of an Infant — David S. Stephens, Kathryn M. Edwards, Fred Morris, and Zell A. McGee — 568

Emphysematous Pyelonephritis Caused by *Candida tropicalis* — Steven M. Seidenfeld, Charles F. Lemaistre, Hartono Setiawan, and Robert S. Munford — 569

Institutional Report

National Institute of Allergy and Infectious Diseases

Summary of a Workshop on Serodiagnosis of Systemic Mycoses — Morris A. Gordon and Darrel D. Gwinn — 570

Correspondence

Observations

Vancomycin-Induced Neutropenia — Raymond Strikas, James Studlo, Frank R. Venezio, and J. Paul O'Keefe — 575

Comments

Surface Hydrophobicity of Group A Streptococci — Torkel Wadström and Stanislawa Tylewska — 576

Reply — David P. Speert, Lewis W. Wannamaker, and Paul G. Quie — 578

Volume 146 • *November 1982* • *Number 5*

CONTENTS

Original Articles

Clinical Investigation

The Association of Urinary Tract Infection with Sexual Intercourse	Lindsay E. Nicolle, Godfrey K. M. Harding, Jutta Preiksaitis, and Allan R. Ronald	579
Herpetic Proctitis and Meningitis: Recovery of Two Strains of Herpes Simplex Virus Type 1 from Cerebrospinal Fluid	Michael Heller, Richard D. Dix, J. Richard Baringer, Julius Schachter, and John E. Conte, Jr.	584
Bacteriology of the Maxillary Sinuses in Patients with Cystic Fibrosis	Eugene D. Shapiro, Gregory J. Milmoe, Ellen R. Wald, Joan B. Rodnan, and A'Delbert Bowen	589

Pathogenesis

Protective Effect of Colectomy in Frog Virus 3 Hepatitis of Rats: Possible Role of Endotoxin	Jean-Pierre Gut, Sylvie Schmitt, Annick Bingen, Michèle Anton, and André Kirn	594
Studies on the Pathogenesis of the Jarisch-Herxheimer Reaction: Development of an Animal Model and Evidence Against a Role for Classical Endotoxin	Edward J. Young, Norden M. Weingarten, Robert E. Baughn, and W. Christopher Duncan	606
Entamoeba histolytica Cytotoxin: Purification, Characterization, Strain Virulence, and Protease Activity	Katherine McGowan, Carl F. Deneke, Grace M. Thorne, and Sherwood L. Gorbach	616

Epidemiology

The Epidemiology of Infections Due to *Neisseria meningitidis* and *Neisseria lactamica* in a Northern Nigerian Community	I. S. Blakebrough, B. M. Greenwood, H. C. Whittle, A. K. Bradley, and H. M. Gilles	626
Isolation of Hantaan Virus, the Etiologic Agent of Korean Hemorrhagic Fever, from Wild Urban Rats	Ho Wang Lee, Luck Ju Baek, and Karl M. Johnson	638
Laboratory-Acquired Infections with Hantaan Virus, the Etiologic Agent of Korean Hemorrhagic Fever	Ho Wang Lee and Karl M. Johnson	645
An Institutional Outbreak of Hepatitis B Related to a Human Biting Carrier	Talley P. Cancio-Bello, Maria de Medina, James Shorey, Maria D. Valledor, and Eugene R. Schiff	652

Experimental Medicine

Natural Infection of Suffolk Sheep with Scrapie Virus	W. J. Hadlow, R. C. Kennedy, and R. E. Race	657

Microbiology and Immunology

Antibody-Independent Activation of C1 by Type Ia Group B Streptococci	Michael E. Eads, Nancy J. Levy, Dennis L. Kasper, Carol J. Baker, and Anne Nicholson-Weller	665
Pathogenicity of Acyclovir-Resistant Herpes Simplex Virus Type 1 from an Immunodeficient Child	C. D. Sibrack, L. T. Gutman, C. M. Wilfert, C. McLaren, M. H. St. Clair, P. M. Keller, and D. W. Barry	673

Enocin: An Antibiotic Produced by *Streptococcus salivarius* That May Contribute to Protection Against Infections Due to Group A Streptococci	Christine C. Sanders and W. Eugene Sanders, Jr.	683

Antimicrobial Drugs and Therapeutics

Selection of Aminoglycoside-Resistant Variants of *Pseudomonas aeruginosa* in an in Vivo Model	Andreas U. Gerber, A. Paul Vastola, John Brandel, and William A. Craig	691

Medical Perspective

Present Chemotherapy for Tuberculosis	Asim K. Dutt and William W. Stead	698

Data Forum

Infection Due to *Yersinia enterocolitica* in Children with Abdominal Pain	Chik H. Pai, Faye Gillis, and Melvin I. Marks	705
Correlation of Invasiveness with Plasmid in Enteroinvasive Strains of *Escherichia coli*	Rosa M. Silva, Maria Regina F. Toledo, and Luiz R. Trabulsi	706
Recurrence of Herpes Simplex Virus after Dental Extraction	Harry Openshaw and Henry E. Bennett	707
Limitation of Kidney Growth in Rats by Acquiescent Renal Infection	Thomas E. Miller	708
Field Trial of Trivalent Measles-Rubella-Mumps Vaccine in Japan	A. Sugiura, M. Ohtawara, M. Hayami, M. Hisiyama, A. Shishido, R. Kawana, M. Hirayama, S. Makino, M. Kimura, S. Isomura, M. Takahashi, K. Kawakami, and S. Matsuyama	709
Tuberculous Lymphadenitis: A Survey of 94 Cases	Israel Priel and Eran Dolev	710
Effect of Temperature on the Susceptibility of *Sporothrix schenckii* to Amphotericin B	Steven M. Seidenfeld, Billy H. Cooper, James W. Smith, and Philip A. Mackowiak	711

Clinical Briefs

Prolonged Excretion of Group A Coxsackievirus in an Infant with Agammaglobulinemia	J. P. Johnson, R. H. Yolken, D. Goodman, J. A. Winkelstein, and J. E. Nagel	712
Peritonitis Due to *Mycoplasma hominis* in a Renal Transplant Recipient	J. E. Mokhbat, P. K. Peterson, L. D. Sabath, and J. A. Robertson	713

Correspondence

Antibodies to Lipopolysaccharide in the Acute-Phase Sera of Patients with Meningitis Due to *Haemophilus influenzae* Type b	P. Helena Mäkelä	714
Reply	Dan M. Granoff, Jerry L. Shenep, and Robert S. Munson, Jr.	715
Erratum (146:109–115, 1982)		716
Notices		717

Volume 146 • *December 1982* • *Number 6*

CONTENTS

Original Articles

Clinical Investigation and Epidemiology

A Prospective Microbiologic Study of Bacteriuria in Patients with Chronic Indwelling Catheters	John W. Warren, James H. Tenney, John M. Hoopes, Herbert L. Muncie, and William C. Anthony	719
Precise Estimation of the Numbers of Chronic Carriers of *Salmonella typhi* in Santiago, Chile, an Endemic Area	Myron M. Levine, Robert E. Black, Claudio Lanata, and the Chilean Typhoid Committee	724
Epidemiology of *Clostridium difficile* in Infants	H. E. Larson, F. E. Barclay, P. Honour, and I. D. Hill	727

Clinical Laboratory Diagnosis

Detection of Antibodies to Epstein-Barr Virus Antigens by Enzyme-Linked Immunosorbent Assay	Ralph F. Hopkins III, Tracy J. Witmer, Russell H. Neubauer, and Harvey Rabin	734
Serologic Diagnosis of Whooping Cough by an Enzyme-Linked Immunosorbent Assay Using Fimbrial Hemagglutinin as Antigen	Marta Granström, Gunnar Granström, Anders Lindfors, and Per Askelöf	741

Pathophysiology of Infection

Possible Alteration of Normal Mechanisms of Endotoxin Toxicity in Vivo by Actinomycin D	Deborah E. Brown and David C. Morrison	746
Interaction Between Human Polymorphonuclear Leukocytes and Two Different Strains of Type 1 Fimbriae-Bearing *Escherichia coli*	Lena Öhman, Jan Hed, and Olle Stendahl	751
Leishmania enriettii Amastigotes: Demonstration of Fibrillar Surface	Virginia H. Hodgkinson and Curtis L. Patton	758

Medical Microbiology

Production of *Shigella dysenteriae* Type 1-Like Cytotoxin by *Escherichia coli*	Alison D. O'Brien, Gerald D. LaVeck, Michael R. Thompson, and Samuel B. Formal	763
Outer Membrane Proteins of *Pseudomonas aeruginosa* Serotype Strains	Lucy M. Mutharia, Thalia I. Nicas, and Robert E. W. Hancock	770

Immunology and Host Resistance

Evaluation of a Cold-Recombinant Influenza Virus Vaccine in Ferrets	H. F. Maassab, A. P. Kendal, G. D. Abrams, and A. S. Monto	780
Resistance of Mice with Limited Intestinal Flora to Enteric Colonization by *Clostridium botulinum*	Carol L. Wells, Hiroshi Sugiyama, and Sarah E. Bland	791
Impairment of Immunocompetent Mouse Spleen Cell Functions by Infection with Coxsackievirus B3	Mauro Bendinelli, Donatella Matteucci, Antonio Toniolo, Anna Maria Patanè, and Maria Pia Pistillo	797

Antimicrobial Treatment

Successful Prophylaxis Against Experimental Streptococcal Endocarditis with Bacteriostatic Antibiotics — M. P. Glauser and P. Francioli — 806

Doxycycline Prophylaxis for Human Scrub Typhus — J. C. Twartz, A. Shirai, G. Selvaraju, J. P. Saunders, D. L. Huxsoll, and M. G. Groves — 811

Pharmacokinetics of Interferon in Blood, Cerebrospinal Fluid, and Brain after Administration of Modified Polyriboinosinic-Polyribocytidylic Acid and Amphotericin B — Basil B. Williams, Richard T. Paul, and A. Martin Lerner — 819

Data Forum

Diversity of Serotypes in Outbreaks of Enteritis Due to *Campylobacter jejuni* — Martin J. Blaser, John L. Penner, and Joy G. Wells — 826

Lack of Parallelism in Antibody Responses as Measured by Enzyme Immunoassay after Infection Due to Influenza Virus A/USSR/77 (H1N1) — Gregory W. Hammond, Gary R. Noble, and S. Jay Smith — 827

Asymptomatic Urethral Infections Due to *Chlamydia trachomatis* in Male U.S. Military Personnel — John K. Podgore, King K. Holmes, and E. R. Alexander — 828

Institutional Report

Centers for Disease Control

Isolation of Nontuberculous Mycobacteria in the United States, 1980 — Robert C. Good and Dixie E. Snider, Jr. — 829

Correspondence

Observations

Sensitivity to Mycobacterial Antigens in Tubercular Patients in Rio de Janeiro — Lamartine Palhano, Jr., Eliane D. Madeira, and Laerte de Andrade — 834

Interferon in Renal Transplant Recipients — Satya N. Chatterjee and George W. Jordan — 834

Errata

146:417–422, 1982 — 835
146:565, 1982 — 835
